Subject: Litter on A14 Cambridgeshire

Short support message:
Make Britain Great & Green Again!

Message Body:

The litter along the A14 in particular from Cambridge to Newmarket and beyond is thick with litter everywhere you look! Bags stuck in hedgerows, blowing like flags from trees, and debris all along the verge for as far as the eye can see.

It is a hazard to wildlife and to drivers as it blows into the road now also. It has to be cleared urgently.
