Dear Mr David

Thank you for your email of 27 January 2014 regarding litter on railway land at Marlas Road, Bridgend.

Our maintenance team inspected this location on 1 February 2014.

As soon as we have resources available we will arrange for a litter pick to be carried out at this location; we are responsible for the safe running of the railway and have finite resources; these must be prioritised by the risk to the running line that any issue on our infrastructure presents. As you will be aware, we have experienced unprecedented weather conditions over the past months and this has had a huge impact on the rail infrastructure.

Currently our workforce is working on safety critical issues and as I am sure you will agree this has to remain our priority.

I hope this information is helpful and as soon as I have an update for you regarding this I will advise you immediately; please do not hesitate to contact me in the meantime.

With regards

Samantha Rivers
