Subject: Litter on the A41

Jackie,

Mike Coker has kindly passed on to me your e-mail to him of 14th March.

It is a very honest and helpful summary of the problems faced by a local authority in having to cleanse a busy main road passing through its area. I am genuinely sympathetic with your situation.

In it you refer to a “three monthly schedule” for litter picking this road.

My question to you is this: How do you reconcile such an infrequent schedule with the council’s obligation under [Section 89\(1\) of the Environmental Protection Act 1990](#)?

I look forward to hearing from you.

Kind regards,

Peter Silverman
