Subject: RE: Cleansing of Highways Agency Trunk Roads

Peter

My apologies to the delay in my response. We have considered your question with senior colleagues at Defra and the Highways Agency.

As this proposal has been put forward in evidence to the Communities and Local Government Select Committee inquiry into litter, we await their thoughts on the matter with interest. We will consider the proposal formally following the publication of their report, most likely as part of the Government's response.

In the meantime, we will continue to explore this further with colleagues across Government.

As per my earlier email, please address any further questions you have on this matter to me and my colleague, Ian Dunlop (ian.dunlop@dft.gsi.gov.uk) directly.

Kind regards

Jon
